

FALLING DOWN

In my heart the road to zion
My Tears Come falling down Like Rain
Our love was strong as a lion
But now I need to break my chains

Gonna send them up in flames
You make me burn with a wave of your hand
Our love will never be the same
Our love will never come again

CHORUS / REFRAIN

*I remember all the good times
I wanna lay my body back in your arms
If love was a crime
It could make me bad*

*I remember all the good times
I wanna lay my body back in your arms
If love was a crime
I would remember everything we had*

Like a shadow in the dark
I try to escape the light
over the waters in the arc
I will be rescued in the night

I feel like i'm scarred
All around my heart
I confess I loved you from the start
But our battles made me fall down
'Feel like a stranger in the town
But our battles made me fall down

CHORUS / REFRAIN

*I remember all the good times
I wanna lay my body back in your arms
If love was a crime
It could make me bad*

*I remember all the good times
I wanna lay my body back in your arms
If love was a crime
I would remember everything we had*

BRIDGE / PONT

I'm not sure I'll be able to forgive you
As It was deeply painful to me
And if we search for something new
The color of my fear is blue

Oh lord forgive his sins
Protect me from this hell
Let me open my wings
Again, I want to be an angel

CHORUS / REFRAIN

*I remember all the good times
I wanna lay my body back in your arms
If love was a crime
It could make me bad*

*I remember all the good times
I wanna lay my body back in your arms
If love was a crime
I would remember everything we had*

If love was a crime
It could make me ba-ah-ah-ah-ad
If love was a crime
It could make me ba ah ah ah ad
If love was a crime
I would remember everything we ha-ha-h- ha-had

Had had had had had had
Had had had had had had
Had had had had had had
Had had had had had had
