

## ROCK YOU

Let me make you feel good baby eh,  
So you just finished work baby  
Let me treat you like a real woman should honey  
So you really tired of your day

Let me make you forget about anything bad hubby  
So it felt really cold outside today  
Let me hug and kiss you warmly my darling  
So you wanna lay down and relax  
Let me cook you a good meal , no need to ask

So I'm a good girl tonight  
Your wish is my command  
I'm good wife let me treat you right  
This is the best day of your life
