

## **SO FAR AWAY**

Tell me if you know the way in which he left

The reason he couldn't stay  
Oh Tell me - do you know the way  
Another day, I'm gonna cry.

Tell me, do you know the way  
He seemed to flee  
Or seemed just to follow his fate ?

Oh why- why he went away,  
Gone without even a goodbye

### **CHORUS**

*I can still hear his voice but the words fade away  
In my dreams I can see his shadow around me  
In the silence of my heart, he slowly comes the night  
Please - just tell me why he's so far away*

*I just - need to understand and find an answer  
To light me like the sun  
Why he left his native land to the other-side of the ocean ?*

You know if I have to pray?  
If I could hope

oh to see him again a day?  
Tell me - if I have to wait,  
wait for my child who went away

### **CHORUS**

*I can still hear his voice but the words fade away  
In my dreams I can see his shadow around me  
In the silence of my heart, he slowly comes the night  
Please - just tell me why he's so far away*

*I just - need to understand and find an answer  
To light me like the sun  
Why he left his native land to the other-side of the ocean ?*

I can still hear his voice but the words fade away  
In my dreams I can see his shadow around me  
In the silence of my heart, he slowly comes the night  
Please, just tell me why he's so far away

Tell me How I have to pray  
To stay alive and to wait for him again  
Tell me how to save my heart.  
I must survive, and to keep the faith.  
Show me, oh - give me a way  
To bear this pain

And not to hope in vain
